Your Comments about the Park*required*

Very meticulously maintained park. We enjoyed the views of the mountains. The evergreen trees planted in the park were a perfect, beautiful contrast to a basic brown area in & around Alpine Texas. We fell in love with this small town and chatted considerably with the RV Park staff and shop owners as we walked this cute little town. Plenty of space in the dog run to let the pooches roam. I was able to ride my bike on this hard-pack gravel surface. Very nice park and very reasonably

Add a tip

A must do #1 - Drink a cold beer (cash only) at "Harry's Tinaja," owned by a German man...no food here (so don't ask.) Must do #2 - Ready to eat real Mexican food? Eat at Los Jalapenos Restaurant. Try it for breakfast and do one of their burritos! It is excellent and priced very reasonably. Must do #3 - Shop at the Kiowa Gallery...the proprietor has reasonably priced cool items including souvenirs!
